

100%
CO₂ FREE FREIGHT TRANSPORT WITH
TFG ECO TRAIN

» Osnabrück – Hamburg » Bremerhaven » Wilhelmshaven: The CO₂-free alternative to road transport.

TFG Transfracht creates a CO₂-free rail alternative to road transport between Osnabrück and all loading points in Hamburg, Bremerhaven and Wilhelmshaven with relevance to the maritime sector.

With CTOS, another terminal powered by green electricity is joining the AlbatrosExpress network. Six weekly departures provide 100% CO₂-free transport. Make your transport chains more sustainable and actively protect the climate.

» Your benefits at a glance

	Connections: 6 connections per week between the Osnabrück economic region and all major loading points in Hamburg, Bremerhaven and Wilhelmshaven
	Connection to the B 68 (feeder road) Connection to the Iron Silk Road
	Short transit times, fixed timetables
	Individually coordinated port-to-door deliveries
	Scalable train operations: allow flexible increase in volumes
	CO₂-free transport: With TFGeco train for 100% CO ₂ -free rail transport powered by green electricity CO₂-free terminal: Terminal operation with green electricity CO₂ savings vs. road: Shifting approximately 40,000 TEUs to rail and using TFGeco train saves up to 7,000 tonnes of CO ₂ emissions per year.

Container Terminal Osnabrück

- » **Transshipment:** 20', 30', 40', 45' containers
- » **Transshipment sidings:** 4 x 710 m each, 2 x 350 m each
